To Whom it may concern,

We were granted permission to build in December 2019 and are scheduled to start demolition of the existing building on the 6th of January and start building at the end of January.

The following precondition was stipulated

"Before development commences the protective Heras fencing (3m buffer zone) as shown on plan ref: 1553_210 A shall be erected and shall remain in place for the duration of the construction of the dwelling hereby approved"

Please note that the Heras fencing as requested will be erected first thing on Monday morning (6th) prior to the commencement of any work to the site.

Please advise if this is not acceptable.

Best regards

Danilo Todeschini
