Subject: Planning Application P/83/15/PL

Dear Sirs,

I wish to add to the comments I have made objecting to this planning application under my reference OWPC6774.

I referred to photos which I now attach, showing the proximity of the mast to my home, both at the rear and its position and visibility from the front when looking at my property from my front garden in Barton Close. The mast dominates the skyline and will be a greater eyesore if this application is granted.

Yours faithfully,

David Longmore
