Subject: RE: Planning Consultation on P/89/14/DOC

Comment from Greenspace

The submitted drawing 10150 PL 100 does not adequately detail the proposed new hedgerows (native species) to be planted to the southern and eastern boundaries or any infill to gaps in the northern and western hedgerow belts. The information required would need to contain species mix, quantities, planting densities and size at time of planting. We would also request information on the timetable for the implementation of these works.

We consider that the information supplied is insufficient to recommend the discharge of Condition 3 on this application (following grant of application P/52/14/PL)
