

Hallson Homes (Hall Developments Hardwick Road Ltd)
Planning Condition Discharge – Condition 8, External Lighting REV A

To ensure that there is no upward light spill that may cause disturbance to bats in the local area we require that the external lighting used does not direct any light upwards

Plot 1 & 3 – To have external use downlights under the porches. These are to be pointing directly downwards with the porches acting as a shield to prevent upward light spill. These will be fitted with a PIR sensor for added security.

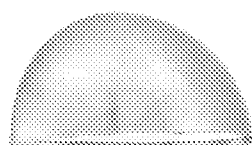

Out 65, round, outdoor, down light, 40W 18 Low Voltage, white, IP65
White plastic outdoor low voltage down light. PIR sensor. 180° beam spread. 2000 Lumens. 12V.
£12.95
Part number: 111011

model	111011
