Subject: RE: APPLICATION NO:P/91/18/PL

Mr Fisher,

Thanks for your e-mail.

The decision on the application was made yesterday. The consideration of the merits of the application are shown in the officer report – if you have not already seen this it is available to view here <https://www.arun.gov.uk/weekly-lists> by adding the reference number of the application in the relevant box.

Subject: APPLICATION NO:P/91/18/PL

Good Morning Mr Vick

We have received the final decision as above in conjunction with the church shipping container

At what point was this decision made, bearing in mind the three houses around this container made an objection(with acknowledgement's) and have not been consulted on this, or even had had any discussions over this.

This appears just to have been a decision made by council with not one part consideration or empathy given to the people that actually live there. This is not very professional and your conduct is appalling.

We at least deserve an explanation for this, and await your response.

Just to make you aware I did not object to the container itself, what we objected to was the planning and I requested it to be changed to say it would be covered in a way it was not an eyesore and not to draw attention to it by passing youths

I am not here to act as a security guard for the church and call the police every time there is movement around it.

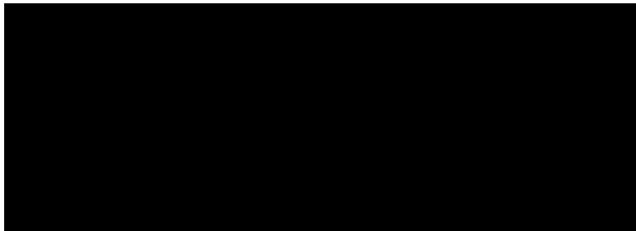

If it is not changed the church will just leave it exposed as this would be an additional cost to them and I know this will happen once it's in, it will be left. They say it will be secure as gate is always closed,, this is never the case the gate is open every night as it is now when I look out the window.

I look forward to your comments on this at your earliest convenience

Many Thanks

Best Regards
