Hi Robin,

Sorry you rang me just as a Meeting was about to start.

Tom Day will be writing to your side soon to request details of reasonable alternatives for consideration by the Habitat Regulations Assessment. He needs this information to complete the Assessment. Our next steps/progress on the application is dependent on the completion of the HRA. As you will be aware, we will then need to consult NE on the HRA and once they have confirmed they are ok, we can then move to preparing the recommendation/writing the report and ADC/CDC agreeing the decision. Once that is done we can then refer to the MHCLG for their consideration. There is no point in raising this with MHCLG until we are ready to actually refer this to them.

Kind Regards.

Simon J Davis MRTPI

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Good morning Simon,

Mindful of the critical timescale we are dealing with on our planning application, please can you update me with the outcome of your recent meeting with CDC and MMO regarding the coastal concordat? Do all parties have all the information they need for the determination date of 19-10-21 for our application? I believe this date incorporates the statutory period required for government sign off.

Recent extensive and ongoing surveys recently shared with the Pagham Coastal Issues Advisory Group, confirm the threat to homes and businesses this winter, if no action is taken.

Any update by phone or email would be appreciated.

Many thanks
Robin
