Dear all,

I have revised the HRA in the light of Natural England's comments and the discussions yesterday. Where NE have suggested changes as 'tracked changes' I have accepted the new text. However for the 'test of alternatives' the comments were such that I have largely re-written that section and started again with a completely new table for that test. I hope this addresses the comments and concerns raised.

For the sake of clarity and speed I have attached a finalised version. To also speed matters up I have copied NE into this e-mail rather than ask for CDC and ADC officer comments first, so any errors or typos are mine alone.

Regards,

Tom

Tom Day
Environmental Co-ordinator
