Subject: FW: Planning Consultation on: P/94/15/PL

Hi Simon,

I have concerns that the noise report appears not to take account of any noise from the pumping station, in that it states on page 11 that "it was not possible to determine a noise level specifically attributable to the pumping station". Therefore presumably it would have been appropriate to contact the water company to determine how often the pumping station comes on, and the likely noise level attributable to it. I would suggest that the applicant needs to contact the water company and find out this information.

The internal noise levels appear acceptable provided that the mitigation measures stated in the Conclusions on page 14 of the noise report are implemented.

In light of the lack of information about noise from the pumping station, I would recommend **refusal** of this application as it stands.

Regards

Fiona Fitzgerald
