Dear Sir,

I am writing to voice my support for the plan to cut the spit at Pagham beach

I generally visit twice a year and I have watched the deterioration of the area for some time now. I am very concerned at the lack of sensible progress in avoiding further erosion. The activities and attractions provided by Pagham Beach and its facilities are both varied and significant. There has been considerable damage with heavy machinery, barriers and dangerous currents and this has brought about a decline in the attractiveness of Pagham Beach for residents' businesses, activity groups and visitors. The cost to people's lives, property and businesses has been significant. Watching the lorries trundle up and down in the dark to move shingle may be interesting for the occasional visitor but must be soul destroying for the permanent residents. Especially as the sea moves it all back again almost immediately!

I am convinced that cutting the spit will resolve this issue and would urge you to support this move.

Yours faithfully,

Andrea King
