I write in support of the proposal to undertake a managed breach of the shingle spit at Pagham Harbour.

Arun District Council Planning Application Ref: P/97/15/PL
Chichester District Council Planning Application Ref: SY/15/03053/FULE

It is paramount that this outcome is moved forward as soon as possible. It is also vital that the two relevant Local Planning Authorities, together with the Environment Agency, Natural England and RSPB, should all work together in a positive manner. My support is based on the following positive outcomes:

That the people who live in the near vicinity are safeguarded against losing their homes/livelihoods at the expense of ecological interests however important these are, they will surely re-establish themselves after the cutting of the spit, similarly the SSSI beach will recover after months of engineering work that has been carried out.

That the beach will recover to it's former glory and be a place that both residents and visitors alike will be able to enjoy again after such a long period of erosion, damage from machinery and loss of vegetation.

That the cost to the local community has been significant in terms of property values dropping and businesses losing significant trade.

Having considered the report and supporting documents submitted by ABPmer, I commend the proposals and respectfully request Arun District Council and Chichester District Council to do the same.

The spit needs cutting as soon as possible so we can get our lovely beach back and feel safe in our homes again!

Thank you for considering my representations

Kind regards

Tracy Barnes
Pagham Beach Resident
