Dear Daniel,

We now have the response of Natural England (attached). Please note that we did receive a response from them on the 5th November but this requested an assessment of waste water impacts on Solent European sites. I queried this as Arun DC have thus far not been requested to do this – and no sites in Arun discharge into the Solent. This revised response received today therefore omits this requirement. However, we are still required to consider the impact of the proposal on Pagham Harbour and must carry out an appropriate assessment to enable this the impacts to be analysed. It would be helpful to us if your ecologist could provide a written response to assist me in writing the appropriate assessment. For example a Shadow Habitat Regulations Assessment or similar. Please indicate whether you will be providing such a response and if so, provide it by the 14th December.

Kind Regards
