Hi Sian,

Thank you for your feedback.

We didn't have a full topographical survey, so whilst we've faith in the dimensional accuracy of the building survey, we are otherwise reliant on the OS plan accuracy.

On this basis, please proceed as you suggest. The porch area (once permission is received) will be formed as per the scaleable drawings, so there'll be no contradiction with the approved plans, no matter what the issue with OS plan accuracy.

Kind Regards,

Anthony Brown

Dear

Thank you for your email, in this instance the floor risk assessment is not required. However we will required dimensions on the block plan from the proposed extension (porch) to all site boundaries. With your permission we can add these for you.

Kind regards
Sian Eggington
