Dear Sir/Madam,

Proposal: Change of use of land from agricultural to recreational use for the siting of 10 holiday lodges for seasonal use (1 March-30 September) with associated groundworks, landscaping, including retention of earth bund. This application affects a Public Right of Way and is in CIL Zone 5 (Zero Rated) as other development.

Site: Land north of Lagnersh House, Lower Bognor Road, Lagness, PO20 1LW.

Thank you for your correspondence, please see our comments below regarding the above application.

Development Site is not within Southern Water's Water Supply Area

The development site is not located within Southern Water's statutory area for water supply services. Please contact Portsmouth Water, who are the relevant statutory undertaker.

Tree Planting

We have restrictions on tree planting adjacent to Southern Water sewers, rising mains or water mains. Reference should be made to Southern Water's publication "A Guide to Tree Planting near water Mains and Sewers" (https://www.southernwater.co.uk/media/pddob0vn/ds-tree-planting-guide-1_nwm.pdf) and the Sewerage Sector Guidance (<https://www.water.org.uk/sewerage-sector-guidance-approved-documents/>) with regards to any landscaping proposals and our restrictions and maintenance of tree planting adjacent to sewers, rising mains and water mains.

Condition

In order to protect public apparatus, Southern Water requests that if consent is granted, the following pre commencement condition is attached to the planning permission; The developer must advise the local authority (in consultation with Southern Water) of the landscaping proposals in proximity of

public apparatus in order to protect it in accordance with Southern Water's guidance, prior to the commencement of the development.

Proposed Soakaways

The Council's Building Control officers or technical staff should be asked to comment on the adequacy of soakaways to dispose of surface water from the proposed development. No new soakaways should be located within 5 metres of a public or adoptable gravity sewer, rising main or water main.

No Soakaways should be connected to the public surface water sewer.

Proposed Disposal to ground from package treatment plant

The Environment Agency should be consulted directly by the applicant regarding the use of a private wastewater treatment works which disposes of effluent to sub-soil irrigation.

Due to legislative changes effective from 1st October 2011 regarding the ownership of sewers, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction work, an investigation of the sewer will be required to ascertain its ownership before any work commences on site. If this happens, please call our Customer Service Desk on [REDACTED]

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX ([REDACTED])
