The applicant is requested to provide a brief statement giving details of how the proposal will impact on the local transport network, including basic information on attraction of additional trips, the likely effects on the junction between the site access and the A259 and the applicant's proposals for ensuring that any additional trips do not have an adverse impact on the local transport network. A brief written statement should be included outlining the applicant's proposals for ensuring that access to the site by non-car modes is encouraged and provided for.
