With reference to the planning application for a new area of parking for the minibuses used by Princess Marina House. I would like to object to the application for the following reasons:

There is plenty of parking area at the moment for the parking of vehicles on the Princess Marina site and I find it curious as to why they would want to encroach onto the garden area to the side of Broadmark Lane. This will without a doubt have a negative visual impact on the site and if allowed to go ahead it will look like minibuses have been parked in the garden, ruining our and other peoples view.
