RECEIVED

Dear Mrs Gardner

PLANNING APPLICATION R/105/15/PL

Please note, I wish to object to the above planning application for the following reasons.

- a) It would be of no advantage to the parking of the mini buses as the access required (where they park now) would be needed at all times. No extra parking spaces would be gained.
- b) The detrimental visual effect would be most notable. It would appear that two minibuses were parked in the front garden!
- c) The applicants in a previous planning application some years ago extended part of the building into the car park. When asked about the effect of a smaller car park, the applicants stated they would encourage the staff to cycle to work. Over the years I have yet to see even one bicycle enter or leave. (I overlook Seafield Rd and Princess Marina House.)
May I just add that as an EX R.A.F. pilot myself (many years ago) my attitude to the considerable development that has taken place over the past years has been to date, mainly sympathetic. But I now find this latest application unnecessary and what might be termed "a bridge too far"

Yours sincerely

BRIAN K. B. FELTHAM
