Dear Sir/Madam,

We have lived here for 7 happy years at 6 Heritage place a ground floor Apartment with a balcony with beautiful views of the gardens of Princess Marina beach and sea, and all of a sudden someone wants to Park Buses on Princess Marinas gardens blocking our view of the lovely gardens beach and sea. We object very strongly to this.

If you allow buses to park on the garden it will

never be a garden again
it will finish up as a
car park.

Please find enclosed
photographs taken in the
morning and afternoon at
various times and dates,
and notice how comfortable
the buses look in these
parking places, and also
notice how many spare
parking places there are.

You are very welcome
to come and visit us and
see for yourself what
we are on about.

We want Ristington in
bloom not Ristington in
gloom For 2 buses.

Yours sincerely
