Dear Liz,

I will be intending to issue the decision as soon as possible, however, I do have other applications as well as this one.

The requested EoT would be the **latest** intended decision date for the application.

I understand the issues and constraints associated with the development, and will do my best to issue the decision as soon as it is ready.

Please do not hesitate to contact me with any further enquiries.

Kind regards,

Zac

Dear Zac
Thanks for your email

My client is very concerned about this extension as they really wanted to get going, particularly on the courtyard roof, as this will be quite disruptive (being around the entrance and reception forming a thoroughfare for visitors and residents) and wanted to get it well underway during the better weather. I wonder if you could get this one done any sooner for us.

The temporary changes to entrances will mean some residents and visitors walking further to get into and out of the building, with some time restrictions due to construction work, so we are fearful that this will cause anxiety among the elderly residents and their visitors. This will be more easily managed in the finer weather.

I would appreciate you letting me know what you can do in this regard to help my client.

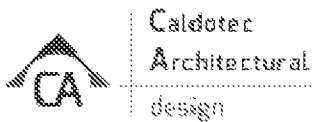

Many thanks for your help

Kind regards

Liz
