10. Pre-application Advice

Details of the pre-application advice received

The design and use of materials allow the proposed development to appear sympathetic to the appearance of the host dwelling and it was considered that it is an appropriate form within the context of the application site.

The proposed development is not considered to result in any significantly harmful overbearing or overshadowing impact upon the occupiers of nearby dwellings as a result of the scale of the carport and the separation distance.

Some concern was raised over the siting of the proposed garage in relation to the existing building line.

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
