Subject: littlestars nursery

for mr simon davies. i have just looked through the planning for expansion for this nursery and there are some mistakes in the comments ,the staff nearly all come by car if you visit the premises when open you will see a line of cars that are there everyday the nursery is open, often blocking the the entrance to the flats adjacent to it ,none of them use bikes and the parents keep parking in the flats carpark causing problems for tenants who live there and pay for the carpark out of the service charge, surely making it bigger will increase this problem i really think this should be taken into consideration , and the children are out more often than stated by the owner ,i myself have been abused by parents when i have asked them not to park in the carpark ,when there are no spaces left in the road some of the staff park in the carpark as well, so could you please take these comments into your thoughts when making your decision ,as we are entitled to live in our homes without all the fuss this will create ,namely the parking issues and the blocking of the entrance to our own

homes

yours

sincerely
