Dear Sir
Re: Listed Building Planning Permission
Manor Cottage Station Road BN16 3AS

Please find enclosed one original and three copies of the completed LBPP forms along with Heritage Statement, Design, Access Statement and photos.

The scope of work is a small project, replacement of old cement pointing with the lime mortar on west elevation. No alterations or change to the fabric of the building or alter the character of the building. Therefore in the interest of time and cost would it be possible for the work to be carried out under the control and supervision of the local conservation officer, rather than the full blown LBPP as it is like for like, mainly on the west elevation with minor repairs to two areas around entrances on the south elevation.

Mr. J Maitland
