Hi Sian,

Many thanks for your assistance on the phone.

1) I have uploaded the CIL form.

2) I have now managed to get the plans to show the scale bar at correct size. It seems to open & print to scale with adobe reader.

3) I have added the visibility splay to the location plan, as this is the only plan that has enough space to show the 43m.

I hope that this will be sufficient for the application now.

Kindest Regards

Holly Williams

Dear Miss Holly Williams

Thank you for getting in contact the application is invalid for the following reasons;

1. A CIL form is required. Please complete and submit the attached
2. The scale bars on the location and block plan aren't to scale however these are not needed so with your permission we can amend these for you.
3. Visibility Splay: West Sussex County Council require that a visibility splay is provided. A splay is formed for a 30 mph speed limit road by measuring from a point 2.4m back from the kerb edge in the centre of the proposed access. A line should then be drawn from either side of this point for 43 m in each direction to the nearside edge of the carriage way. The

splays must intersect land only within the control of the applicant, or within the publicly maintained highway. The distance will increase with the speed limit of the road. If the road is 40 mph speed limit then the distance should be 120 m either side. For speeds above this please contact West Sussex County Council Highways for advice on what would be acceptable.

Kind regards
Sian Eggington
