

Proposed New Dwelling
at
Duncton Road, Rustington

Bin Storage & Collection Provision

Space for wheeled bins for waste and recycling is to be provided for both the existing property at Number 8 Duncton Road and the proposed dwelling alongside. For both dwellings the allocated space is within a secure gated area. Refer to drawing P01 for details.

Bins will be located at the pavement edge for collection. This is in line with the established refuse collection arrangements for the existing and neighbouring properties.
