Dear Mrs Shipham,

Thank you for your email which has been passed to me.

The Local Highway Authority are awaiting further information from the applicant with regard to the proposed off-street parking arrangements. I appreciate the existing on-street parking issues however if any overspill on-street parking were to occur as a result of the planning application a highway safety grounds to resist the application could not be cited though the Local Planning Authority may wish to consider the impact from an amenity point of view.

How residents choose to park cannot be controlled through planning. Any existing concerns and proposals to introduce parking restrictions could be brought up with the [County Local Committee](#).

Kind regards

Katie

Your comments	I am writing in regard to Planning Application R/134/18/PL on the Arun website and the report posted up by your member Katie Kurek on the 16/7/18. I wish to comment that she states that on-street parking is common practice and therefore would not be reason to resist the planning application on these grounds. The on-street parking which is occurring is on a blind corner and is very dangerous, this needs to be addressed not added to by a new property. It was stated in the report that we need to address our concerns about parking to Sussex Police under Section 22 Road Traffic Act 1988 and Section 137 Highways Act 1980 however on the Sussex Police Website it clearly states that any obstructions endangering life should be dealt with by calling 999 and all other issues should be taken to the local authority. I feel these issues do not warrant a 999 call and should therefore be dealt with at the local authority level.
