Subject: Surgery to 1 no. Monterey Pine Tree ReF: R/142/15/T. FAO Miss C. Burrows

Dear Miss Burrow,

Regarding my application to carry out work to my Monterey Pine Tree which has a TPO on it.

Dafydd Lloyd has seen the tree this morning and has given me guidance on what work to do on the tree which is as follows.

The tree is in the front garden of Allangate House, Station Road, Rustington, BN16 3BA., it is close to the flint wall and can be seen easily from Station Road.

Western Elevation

The 2 lower limbs a 3 metre reduction

3rd lowest limb a 2 metre reduction

There are fused limbs at approx the 7 metre height, remove the top limb past the point of fusion.

Eastern Elevation

Remove dead limbs

The 2 lowest limbs up to 1 metre reduction

I hope this is enough information.

Kind regards
Angela Webster
