This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Planning Services should be considered to be advice only, with respect to this planning application.

This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

External placement of tables and chairs to be used in conjunction with the existing use of the building at 106 The Street Rustington.

From inspection of WSCC mapping it had been concluded that the proposed location for the tables and chairs will not be on land that is maintained at the public expense.

The placement will not interfere with the free flow of pedestrians on the maintained footway. Nor will the placement of the tables and chairs interfere with vehicular visibility on The Street or Woodlands Avenue.

The Local Highways Authority does not consider that the proposal would have and an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 109), and that there are no transport grounds to resist the proposal.
