Dear Sirs,

Re: Objection To Building At 21 Hawke Close, Rustington. Planning Ref. R/151/14/HH.

We live at the rear of the above and would like to strongly object to the dormer windows that have been installed as part of a loft conversion.

All four windows at the rear look directly into our bedrooms and gardens and two of the windows directly into our lounge and kitchen. We consider that this building which is only 60-70 feet from our bungalow presents a total invasion of our privacy.

We are also given to understand that the conversion was erected under permitted development but feel it does not comply with all conditions required. Particularly in respect of the cement board cladding. These weather boards in no way meet the requirements that all materials used shall be similar to existing and therefore, is totally out of character with other buildings in the area.

Look forward to your comments.

Yours faithfully,
