9th August 2018

REF R/151/18/HH

Dear M/s T. Headley-Smith,

I would be grateful if you would disregard my letter of complaint dated 1st August, I wish to replace it with this letter.

My complaint is as follows:-

I strongly object to the unsightly over engineered raised pavement which is far too high and the seven foot fence built to divide the front porches boundary. This has apparently been built to disperse the fumes from our boiler. This is absolute nonsense; we have already sent proof to Mrs L Coney in your planning compliance division that these so called poisonous fumes are harmless. The raised footpath and seven foot high fence is right on the borderline of our property at no 16 and should not be allowed as this is a total disregard of the restriction R/7/75 put in place when the properties were built . Condition 9 of this states No Gate, Fence, Wall or other means of enclosure shall be erected or constructed forward of the buildings hereby permitted. I wish to complain in the strongest terms and request that the raised path, wall and fences be removed as soon as possible. This has been built illegally without consultation and without building permission. The builder and agent responsible for this work Mr

Paul Wood claimed he had contacted the planning department at Arun District Council who advised him that he could build a Ten Foot Fence down to the front of the garden if they wanted. Mr P Wood on behalf of Miss Faulkner has blatantly built these structures claiming that we could do nothing to stop them. The total disregard for the need to have planning permission is astonishing. The ridiculous suggestion of building a picket fence between No 16 and No 18 to keep us off their property is highly offensive. As we have not and will not be using their sterile gravel pathway, they have no need to put up yet another horrible structure. As to the fence already built between No 18 and No 20, it is an absolute insult, there is no rubbish.

I believe it is the policy of Arun District Councils Planning Department to be fair and even handed when judging each application. I would be grateful if you could give this matter your urgent attention. I await your decision.

Yours sincerely

Alex Paul
