Hi Nicky,

Thank you for your reply and advice. I have redrawn the plan to scale and added the roofing plan. The planning portal will not allow me to add new documents so I have attached them to this email. I hope that this is ok.

If you need me to upload them to the planning portal I will need a link to a page where I can do this.

I have also attached some pictures to illustrate where the proposed extension will attach and details of the current flat roof and roof tiling.

Best Regards

Alan Craven

Dear Alan

Thank you for your email.

That is fine to extend the deadline to 28th August. If you google 'roof plan', there are some examples of what a roof plan should look like.

Kind Regards

Nicky

Your Ref: R/151/20/CLP

Dear Nicola,

I have looked at the documentation that I submitted and have realised I forgot to sort out the scaling before sending. I am currently working on this but I am a bit busy currently. Is it possible to extend the August 28th deadline for re-submission?

I am assuming that the scaling is the main issue with the documents being accepted for review.

I am also missing the existing and proposed roof plans. Is there an example of a roof plan available on the planning portal that I can look at before preparing my document?

As you may have worked out I am a bit new to this process and any help you can give would be gratefully received.

Best regards

Alan Craven
