Subject: RE: Brambles Hurst Road Planning application

Hi Nicky,
Please disregard my previous email. I have found out how to add documents to the planning portal. The documents have now been replaced with the scaled versions and the roof plan has been added. There are also some additional photographs to illustrate the current construction of the flat roof that I would like to extend.
Thank you for your help so far.
Best regards
Alan Craven

Dear Alan

Thank you for your email.

That is fine to extend the deadline to 28th August. If you google 'roof plan', there are some examples of what a roof plan should look like.

Kind Regards

Nicky

Your Ref: R/151/20/CLP

Dear Nicola,

I have looked at the documentation that I submitted and have realised I forgot to sort out the scaling before sending. I am currently working on this but I am a bit busy currently. Is it possible to extend the August 28th deadline for re-submission?

I am assuming that the scaling is the main issue with the documents being accepted for review.

I am also missing the existing and proposed roof plans. Is there an example of a roof plan available on the planning portal that I can look at before preparing my document?

As you may have worked out I am a bit new to this process and any help you can give would be gratefully received.

Best regards

Alan Craven
