Delwyn,

A legal question if I may. The applicant for live application R/152/13 at 8 West Mead, Rusting has called two rep letters 'defamatory' and requests that they should be removed / blocked out from our website. Their correspondence is set out below and I attach the two rep letters to this e-mail.

Is there any substance to their issue to warrant us blocking out or removing either or both rep letters (from the same person?).

Any questions, please call me on x37888.

Kind Regards,
Damian.

for attention of damian sullivan

dear sir

We have noted two letters from the same person regarding our application objecting to something that we have not applied for, there are also very defamatory remarks based on there innacurate description of our application, these remarks are a pesonal attack on us and should not have been posted.

we also note that the letters are very much out side of the consultation period.

we are dissappointed that they were put into the public domain considering there total innacuracy and the damaging nature of the remarks.

we would like them removed from the site with immediate effect, thank you, mr& mrs kl drew.
