Anita

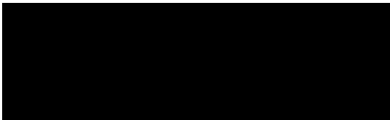

Please find attached the amended drawings as requested. We have also included an updated copy of the section drawing showing how the revised proposals sit within the 45 degree line.

Any questions, please let me know.

Look forward to hearing from you.

Ben,

No you were correct. It should be an amendment to the original planning permission not the NMA

Anita

Noted. I'll get the amended drawings sent out later today hopefully.

Should this have been submitted as an NMA to the Approved NMA rather than the original application then? This is more for my benefit for future reference.

Ben,

It would be simpler if it was included in this application too, since the submitted plans are being considered as an amendment to the original application and not the approved NMA

Thanks

Anita

Anita

Thank you for the comments. Having checked the drawings, the latest annotations for the elevations is correct. The original application annotations were noted with the wrong orientation.

With regard to the OS Plan, the relocation away from the boundary was approved under application R/72/17/NMA and does not form part of this submission. Will you still require an updated OS Plan?

The missing elevation was omitted as no alterations were being made to that elevation, however we will provide this in due course.

Dear Mr Murdoch,

I have received the above application today. It appears that the annotations on the elevations are incorrect and only one side elevation has been provided. There is also no amended block plan indicating the distance from the site boundary. This is altering from that previously approved and the original plan will therefore need to be superseded and replaced.

Without prejudice I would appreciate receipt of revised plans within the next 7 days

Regards

Anita Gardner
