Tree Survey

Site address:
32 Bushby Avenue

Prepared for:
Alan Charlton

Prepared on:
30/08/2020

Prepared by:
Dominic Parrish

Scope:

We have been asked to provide a tree survey for all trees within the site at:
32 Bushby Avenue, Rustington

Method:

The tree survey has taken place by a site visit plotting all trees on the site and performing a Visual tree assessment (VTA). The survey was carried out in a stepwise manner from the base of the tree to the top of the crown. No specialised equipment was used above or below ground level.

The report breaks down as follows-

- **Tree no-** Numbered for identification and reference
- **Species-** Names of tree for reference
- **Preliminary management recommendations-** Tree work recommendations

Client: **Alan Charlton**

Date of site visit: 20/08/2020

1 x Cherry Marked as 1 on map: To Remove: Reason for works due to close proximity of both entrances to 32 and neighbouring driveway.

1 x Yew Marked 2 on map: To remove: Reason is due to the tree being dying/dead.

1 x Sweet Chestnut marked 3 on map: To remove: Reason for works is due to close proximity to both entrances of neighbouring driveway.

1 x Eucalyptus marked 4 on map: To remove: Reason for works is due to close proximity to garage and has a lean over roof.

1 x Ash marked as 5 on map: To remove: Showing signs of ash dieback and being in close proximity to care home to the rear of property.

3 x Silver birch marked in blue circle on map: General reduction work up to 2-3m back to old pruning points to keep these as a manageable size due to garden space.

1 x cherry marked cherry red on map: General reduction work up to 2-3m back to old pruning points to keep these as a manageable size due to garden space.

1 x Holly marked in yellow on map: To remove crown to produce a good overall, manageable size of tree within the space around it.

1 x conifer marked purple on map: To remove due to lack of light of hardwood trees growing close.

The trees mentioned if covered by a TPO (Tree protection order) or is within a conservation area, it will be necessary to consult your local authority before any works can be carried out. Town and Country Planning Act (1990) and the Town and Country Planning Act (Trees) Regulation (1999) and (2008). Birds nesting should also be taken into consideration and bats habitat and reference taken from the Wildlife and Countryside Act 1981.

Any works carried out to these trees should be done by a competent tree surgeon that is insured and follows BS3998:2010 tree work recommendations.
