Hi Sian

1. Happy for you to change the description as per your email
2. Happy for you to amend the site drawing adding 1:200 scale and conversion to PDF though I have supplied an updated version as I noticed 1 dimension missing (gap from new structure to back wall) – thank you.
3. Completed CIL Attached
4. Elevations to scale 1:50 attached.

Hopefully that should cover everything.

Thanks for you help
Kind regards
Matt

Hi

I received the attached letter from you regarding my application and need to address with you directly the following points please.

I have until 1st October deadline to respond so have quickly turned this enquiry around but it would seem your phone system is not taking calls as all attempts send to a full voicemail box, I revert to email but please call on the number below.

1. When I return today to my application on the planning portal why does it appear incomplete (not even paid) when this was all completed, checked and paid on 10/09/2020? Where are all my documents? This is most unhelpful in trying to complete the application and you request.

2. I am also unclear why you would request my time and effort to provide a description of the work on the portal with the option to give several hundred words and yet you wish to change the description to 10 words. I accept the new description but request a reasonable explanation for this please.

3. CIL Form - Ok: This will be provided when I submit the additional information.

4. Scaled elevations 1:50: Ok: This will be provided when I submit the additional information

5. You ask for dimensions on the block plan. These are provided on the site plan. This I need to speak to someone about as the instruction is not clear.
