Dear Planning,

Thank you for consulting Environmental Health on the above application. I have considered the above application and can advise that we require additional information to assess the proposal's environmental impact on neighbouring residents fully.

The outbuilding adjoins a few residential gardens, and such a scheme could harm adjoining properties because of noise emanating from the outbuilding. We require details of any plant or equipment proposed, and the number of clients expected. The applicant needs to confirm proposed trading hours, including noise sources and any mitigation.

With the above, we will be able to assess the application properly.

Kind Regards
