11.9.13.

Dear Mr. Smith,

I am objecting to the plans for a house next to mine. It would be far too big & would come right to my boundary. It will dwarf my property. The entrance to the road will be blocked at times & wheel chair users from the Sun Ryker home at the other end of the road ~~who~~ would have difficulty getting into & out of the road for quite a long time visiting cars also.

The garage which is to be removed has asbestos & adjoins my drive could affect the health of my great grandchildren some of whom are under 5 years. Some of the trees near the garage have birds nests. I hear them now & then.

Yours are my objections  
Yours sincerely
