Re:Extension & Alteration to Top Floor No 3 The Bramblings
Rustington Mr Mike Anstree Ref :R/196/14/HH.
South ELEVATION.

Dear Mrs Gardner,

3, The Bramblings and 1 The Bramblings were build very close together in the approx 1930's. 6inches from my 2 bedroom windows is Mr Anstee 12foot hedge and approx 12 feet away is his roof. The proposed plan of two dormer windows in the south elevation would grossly intrude on my privacy and with the extension on the back would cut further the little light that I have. I also believe that he intents to build further out towards my bedrooms which is totally unacceptable to me. My bungalow is on ground level and his extension In the roof would look down on me.

For this reason I would ask you to ask Mr Anstee to only build On the North elevation.

With kind regards

William Bond
