Dear who it may concern

I am writing regarding the application for works to be carried out on trees in and around the Poplars site (Parklands) Littlehampton / Rustington.

We have lost so many trees in our local area recently & hedges too. I am very concerned about our environment & loss of yet more trees.

We need trees particularly with all the very busy roads as they clean the air of CO₂ emissions.

I am also worried about the wildlife habitats & loss of it and the time of year with nesting birds & other wildlife, disturbing wildlife & habitat loss.

The application does not state which trees are to be removed or have surgery and some have TPO's.

Just a few yards from where I saw the planning application poster on the Parklands estate Rustington I witnessed a hedge along a footpath that had recently been cut back so hard cont...

that a blackbirds nest complete with eggs was exposed & subsequently abandoned by the birds this is a wildlife crime & a criminal offence. I have photos of this which was in BARWICK CLOSE on the Parklands Estate

* Photos enclosed of hedge & nest.

Name & address supplied....
