Subject: RE: R/202/17/TEL - Prior Notification for installation of a 15m monopole supporting 3No. antennas, 1No. equipment cabinet and ancillary development. Remove existing 2No. cabinets & 3No. antennas Claigmar Road, Rustington

Dear Anita,

Following on from the below, please find attached pictures and plans of the existing Vodafone installation on the building at Sterling Parade. The equipment consists of 3no. large grey antennas (Approx. 2m long) installed on wall mounted steel support poles (Approx. 4.5m long) as well as 2no. cabinets (One grey and one green) located behind bollards at ground level.

The prospect of upgrading the equipment to facilitate site sharing at this installation has been fully explored as the first option in line with the Code of Best Practice. However, as there are no legal rights for Telefonica UK Limited to utilise the same site and it has not been possible to agree commercial terms with the Land owner, this this existing telecommunications installation is not available for the operator to share. Inspectors at appeal have found that commercial considerations are a valid factor in determining what is reasonable when erecting antennas on another structure (see further details in Supplementary Information provided with the application).

As a result, the proposed new installation is available and required to meet the operational needs of the Operators; to provide a suitable site sharing location for both Telefonica UK Limited and Vodafone Limited to provide high quality 2G, 3G and 4G coverage and capacity to the commercial centre and surrounding areas of Rustington in line with 4G Licence obligations.

Should you require any further information or clarification, please do not hesitate to contact me.

Kind Regards,

James.

Hi Anita,

The equipment to be removed is on the building on the other side of the road (Tesco), which unfortunately it not been possible for my client to upgrade and further details of the reasons surrounding that can be found in the supporting information.

I will send you some plans over soon.

The drawings provided in the application show a pole and cabinet which we understand are to be removed as part of a recent upgrade to the equipment adjacent to the application site by EE.

Sorry for the confusion and I do hope this helps to clarify things.

Kind Regards,

Jamesm

Dear Mr Chesworth,

I have been discussing your proposal with the parish council and would appreciate clarification as to what equipment is to be removed. Whilst the description of the application relates to removal of 2 cabinets and 3 antenna (and makes no reference to removal of a mast) the submitted site plan and elevations only outline one cabinet to be de-commissioned not 2 and the plans make reference to decommissioning of a pole and not removal of antenna.

I therefore request that revised proposed site and elevation plans are submitted clearly showing the cabinets, antenna, mast that are to be removed .

The Parish Council have their meeting on Monday so I would appreciate receipt of this information by Monday if possible so that they can make their comments whilst fully understanding what is proposed.

Regards

Anita Gardner
