Our Ref: CW/CH/PLAN/17

Date: 12 October 2017

Dear Sir

R/202/17/TEL - Prior notification for installation of a 15 metre monopole supporting 3 No. antennas, 1 No. equipment cabinet and ancillary development. Remove existing 3 No. cabinets and 2 No. antennas - Adopted grass verge, Claigmar Road, Rustington

My Council has agreed that whilst it did not wish to raise any objection to this application in principle, it was requesting that one of the following options should be considered by the Operator, when finalising the location for the monopole and associated equipment:-

- (i) That the installation of the proposed monopole and associated equipment should, if practicably possible, take place after the EE redundant mast, antenna and cabinet have been removed, as confirmed in the attached email correspondence with EE Public Affairs, with this location being used instead of the proposed location
- (ii) That, if Option (i) above is not possible, the proposed location for the monopole and associated equipment should be re-located in a northerly direction, as indicated in the attached photograph
- (iii) That, if practicably possible, the monopole should be one of the 'tree' design poles. This would be preferable, taking account of the fact that Rustington is an award winning South and South East in Bloom, Britain in Bloom and Europe in Bloom Village, renowned for its floral displays and pleasant aesthetic appearance, with all street furniture being tastefully selected to compliment the ambiance of the surrounding area, and all of which are maintained to a very high standard.

They also requested that the local Planning Authority should try to persuade the Applicant to adhere to one or more of the aforementioned options.

Yours faithfully

Mrs Carole Ward
Clerk of the Council

Caroline

Thanks for your email on this.

I understand that we will be removing the redundant equipment in due course so I promise it's not been forgotten. I'm pressing for a date for this to happen and recognise the inconvenience being caused. You have my assurance at least that it will be removed.

Alex

Subject: Operator Reference 20658 - Claigmar Road, Rustington

Dear Mr Jackman

I understand that EE have, in the past year, decommissioned a Telecommunication Mast, Antenna and Cabinet on the grass verge of Claigmar Road, Rustington, BN16 3NL and replaced it with new equipment.

On speaking to the local Planning Authority, regarding another Mast, Antennas and Cabinet which are planned to be erected on the same verge, it has come to light that EE have not removed their decommissioned equipment, and, although it was not part of the condition of approval, it is generally accepted Code of Practice that equipment is removed when no longer required.

We are now receiving representations from Members of the Public in regard to the above, especially with the third set of equipment being installed in the very near future, in such a small space and outside of a Church in a pretty village setting.

I would be most grateful, therefore, if you could advise when you are looking to remove your old equipment, in order that I can relay this information to my Council, whose Planning Committee will be meeting on Monday 9 October 2017.

With thanks.

Yours sincerely
Caroline Harris
