Dear Anita,

Further to our conversation this morning, I attach the surface water drainage and ecology information used to discharge the conditions on the original application R/91/17/PL, and for completeness the Construction Management Plan also. I would kindly ask for this information to supplement and accompany this application in the hope that they satisfy the requirements, and remove any potential requirement for pre-construction conditions to be applied to the new approval.

As mentioned, I would be agreeable to an extension of time as requested, however I will await and respond to your email in due course.

With kind regards

David
