Importance: High

Dear Planning,

I note that the applicant wishes to increase the opening hours for the unit and there is a potential for noise nuisance for example from instruction and music used in classes which could affect occupiers of neighbouring units. As a result EH would request that should the application be approved the following condition be applied:

1. No part of the building shall be occupied until a scheme has been submitted to and approved in writing by the Local Planning Authority for the control of noise emanating from [the building(s) and associated plant and equipment]. The measures included in the approved scheme shall be implemented prior to the first occupation of the building(s) that they relate to and thereafter the measures shall be operated in accordance with the approved scheme unless otherwise agreed in writing by the Local Planning Authority.
2. No sound reproduction or amplification equipment (including public address systems, tannoy, loudspeakers, etc.) which is audible outside the site boundary shall be installed or operated on the site.

Kind Regards

Tendai
