LEGISLATIVE BACKGROUND

Section 192(2) of the Town and Country Planning Act 1990 states:-

If, on an application under this section, the local planning authority are provided with information satisfying them that the use or operations described in the application would be lawful if instituted or begun at the time of the application, they shall issue a certificate to that effect; and in any other case they shall refuse the application.

In this instance the proposed works will be assessed against the Town and Country Planning (General Permitted Development) (Amendment) (No. 2) (England) Order 2015 (as amended).

- Section 55 is relevant as the proposal is not considered to be development.

CONCLUSION

The Town and Country Planning Act S55 Para 2 states:

"The following operations or uses of land shall not be taken for the purposes of this Act to involve development of the land' -

(a)the carrying out for the maintenance, improvement or other alteration of any building of works which

(i)affect only the interior of the building, or

(ii)do not materially affect the external appearance of the building,"

It is indicated by the detail as submitted that the proposed replacement roof tiles in this application would not be materially different in appearance to those currently in situ. This is resultant of referring to their design, detailing and operation.

The proposal is considered to not to materially affect the appearance of the building, and is therefore considered to be development, in line with Section 55, Part 2(a)(ii) of the Town & Country Planning Act. The proposal would therefore not require an application for planning permission.
