Hi Harry,

That's absolutely fine. We agree an EOT until 1st August.

Many thanks, Natalie.

Hi Natalie,

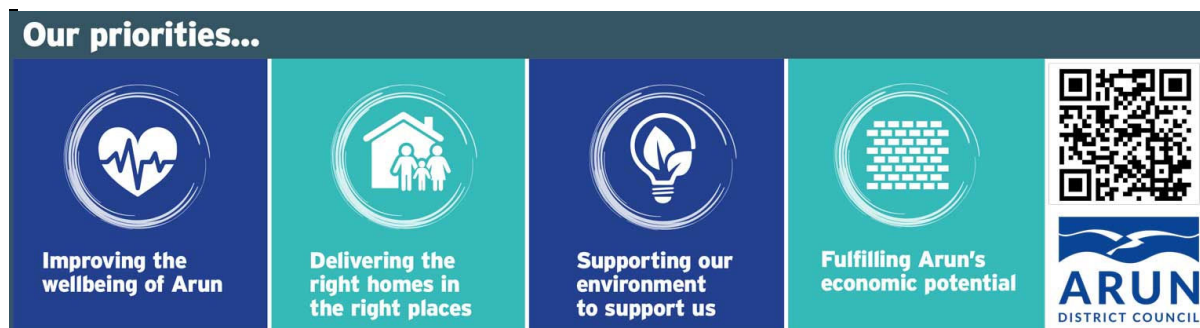

I have discussed timelines with the engineers for this application, and we are looking to receive a response toward the end of July. Could I request agreement to an EoT until 01/08/25 to account for this?

Kind regards,

Harry Chalk, MSc
Senior Planning Officer, Development Management

Hi Harry,

The Surface Water Drainage Technical Note – Ref: D2287, dated 07/05/2025 contains the two highlighted drawings referenced below.

I split these into bullets as it is likely that you will reference the above drawings in conditions etc. Sorry for any confusion.

The two documents are attached for ease of reference.

Many thanks, Natalie.

Morning Natalie,

I am conscious that one of your prior emails confirmed the following documents as those to be reviewed now.

- **Proposed Drainage Strategy** – Dwg No. D2287 000-BPC-WD-ZZ-D-C-PL500 Rev A
- **Hydraulic Model Reference Plan and Catchments** – Dwg No. D2287 000-BPC-WD-ZZ-D-C-PL600 Rev A
- **Surface Water Drainage Technical Note** – Ref: D2287, dated 07/05/2025

This is, of course, in addition to the most recent addition from SOILS.

In reviewing the original FRA and reviewing the substitute documents submitted, I cannot find the Proposed Drainage Strategy (Rev A) and Hydraulic Model (Rev A), only the originals within the FRA. I have an inkling you sent me them, but I cannot find them in my emails. Could you please provide me with an email containing all the substitute documents together?

Thank you,

Harry Chalk, MSc

Morning Harry,

I have now received the geo-environmental report from Soils Ltd (dated 13th June 2025 reference 21977/SS). Please see the attached.

Many thanks for your patience.

I understand that the drainage engineer has sent it to the drainage consultee too.

Many thanks, Natalie.
