Hi Harry,

An extension of time until 15th August 2025 is absolutely fine.

We would appreciate the opportunity to respond to the drainage engineer's comments once they're received, if that's okay?

Kind regards,

Natalie.

Hi Natalie,

As advised previously could we agree a further two weeks EoT until 15/08/25? I have been advised that this should be sufficient time to garner a response.

Kind regards,

Hi Natalie,

No, nothing yet. I am conscious that they were tackling a huge and important inquiry for a couple of weeks very recently, which occupied a substantial amount of their time. I'm suspect this will have had an impact and it may be another couple of weeks as a result. I will chase them nearing the end of this week in line with the current EoT. Would you be willing to agree another for a couple of weeks once I have a more definitive timeline?

Kind regards,

**Harry Chalk, MSc**

Hi Harry,

I just wanted to check in to see if you've heard anything further from the drainage engineer at the Council? I recall you were hoping for their comments this week, so thought I'd follow up. I know you're always great at forwarding things on, so I'm guessing they haven't come through yet.

Many thanks,  
Natalie.

Hi Natalie,

I have discussed timelines with the engineers for this application, and we are looking to receive a response toward the end of July. Could I request agreement to an EoT until 01/08/25 to account for this?

Kind regards,

**Harry Chalk, MSc**

Hi Harry,

The Surface Water Drainage Technical Note – Ref: D2287, dated 07/05/2025 contains the two highlighted drawings referenced below.

I split these into bullets as it is likely that you will reference the above drawings in conditions etc. Sorry for any confusion.

The two documents are attached for ease of reference.

Many thanks, Natalie.

Morning Natalie,

I am conscious that one of your prior emails confirmed the following documents as those to be reviewed now.

- **Proposed Drainage Strategy** – Dwg No. D2287 000-BPC-WD-ZZ-D-C-PL500 Rev A
- **Hydraulic Model Reference Plan and Catchments** – Dwg No. D2287 000-BPC-WD-ZZ-D-C-PL600 Rev A
- **Surface Water Drainage Technical Note** – Ref: D2287, dated 07/05/2025

This is, of course, in addition to the most recent addition from SOILS.

In reviewing the original FRA and reviewing the substitute documents submitted, I cannot find the Proposed Drainage Strategy (Rev A) and Hydraulic Model (Rev A), only the originals within the FRA. I have an inkling you sent me them, but I cannot find them in my emails. Could you please provide me with an email containing all the substitute documents together?

Thank you,

**Harry Chalk, MSc**

Morning Harry,

I have now received the geo-environmental report from Soils Ltd (dated 13<sup>th</sup> June 2025 reference 21977/SS). Please see the attached.

Many thanks for your patience.

I understand that the drainage engineer has sent it to the drainage consultee too.

Many thanks, Natalie.
