Anita

Herne Farm House

Attached to this email I am forwarding as promised copies of the two drawings illustrating the revised proposals for the garage. These latest proposals accommodate the amendments suggested by Ian Wightman and I hope therefore that they will be acceptable to you. Please note that although the drawings do not show it the brickwork will be in Flemish Bond pattern at Ian's request for consistency with the style commonly adopted on Georgian houses.

I understand that you are able to print those hard copies you need and I should be grateful if you would do that. But if you do need me to provide hard copies then please just let me know.

Should you need any further information or material from me then please let me know.

I look forward to hearing from you as soon as possible.

Regards

Dear Mr Harbidge

Please find pdf's of revised drawings as requested.

Anita.gardner@arun.gov.uk is Anita's email.

Thanks and kind regards

Liz

Liz

I have had a response from Anita Gardner attaching the view of the Historic Buildings Adviser. I am meeting him on Wednesday afternoon to discuss his concerns but to facilitate that meeting I wonder if you could prepare a couple of revised drawings please.

These are:

1 Revise the west side elevation to Drwg 11041/02 by replacing the flint in the two triangles above the garage doors with brickwork.

2 Redraw the revised Drwg 11041/02 to show the roof reorientated by 90 degrees ie so that the ridge runs N-S rather than the current proposal of E-W.

If it is possible easily and without too much effort and cost could you also change the brickwork pattern into Flemish bond on both the above revisions.

Am out on site until late afternoon but you can get me on the mobile if you need to or I can call in to your office then or first thing tomorrow.

Many thanks
