CONCLUSIONS**PRINCIPLE**

The application site is located within the built up area boundary, where the principle of development is acceptable subject to accordance with the relevant development plan policies, as stated in SD SP2 of the Arun Local Plan. In this case, the key policies are deemed to be D DM1 and D DM4 of the Arun Local Plan. Additionally, Policy 2 of the Rustington Neighbourhood Development Plan.

Policy SD SP2 of the Arun Local Plan states that development should be focused within the Built Up Area Boundary, and will be permitted subject to consideration against other policies in the Local Plan.

Policy D DM1 sets out 13 design aspects of which applications should be assessed against. These include: Character, Appearance, Impact, Innovation, Adaptability, Crime Prevention, Trees, Public realm, Layout, Public Art, Density and Scale.

Policy D DM4 sets out criteria for which applications relating to extensions and alterations of existing buildings must be assessed against. They generally seek to minimise the impact of the proposal on the character of the host dwelling, its neighbours and the locality.

Policy 2 of the Rustington Neighbourhood Development Plan states that development proposals will be supported providing that their scale, density, massing, height, landscape design, layout and materials reflect and enhance the established character of the area.

DESIGN AND VISUAL AMENITY

Due to its location, there are very few views of the proposed development from the street scene, and therefore, does not have any unacceptable adverse impact on the character of the locality or the established pattern of the area.

The maximum height of the proposed development is 3.3m from ground level, however, this is as a result of a roof lantern, the majority of the proposal is 3m from ground level. This is 5m lower than the existing ridge height of the host dwelling. Therefore, the proposed development is considered to appear subservient to the host dwelling, nor is it deemed to harm its established character.

The proposed development is considered to be in accordance with D DM1, D DM4(a) and (b) of the Arun Local Plan.

NEIGHBOURING RESIDENTIAL AMENITY

The proposals maximum height is 3.3m however, this is atop of a rooflights, which are both set over 1m away from the Eastern and Western edges of the extension. The majority of the extension is 5m lower than the existing ridge height of the dwelling, and there is not deemed to give rise to any significant adverse impact on neighbouring residential amenity. There is not considered to be a significant loss of privacy as the proposal features no windows on its Eastern or Western elevation,s and even if there were, any views would be impeded by the fencing that lies between the two properties. There are new openings on the Southern aspect of the development, however, these look towards the end of the garden.

The proposed development is considered to be in accordance with D DM1(3) and D DM4(c) of the Arun Local Plan.

SUMMARY

The proposed development is deemed to accord with relevant development plan policies and as such is recommended for approval subject to the following conditions.

HUMAN RIGHTS ACT

The Council in making a decision should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as Arun District Council to act in a manner, which is incompatible with the European Convention on Human Rights.

Consideration has been specifically given to Article 8 (right to respect private and family life) and Article 1 of the First Protocol (protection of property). It is not considered that the recommendation for approval of the grant of permission in this case interferes unreasonably with any local residents' right to respect for their private and family life and home, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation for approval is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

DUTY UNDER THE EQUALITIES ACT 2010

In assessing this proposal the following impacts have been identified upon those people with the following protected characteristics (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation).

The proposal would have a neutral impact on the protected characteristics.
