

04 December 2017

Dear Arun Planning,

I am confused by the random placement/lack of planning notices in particular to the recent applications to prune the Sycamore at the rear of Nos 10/12 Bushby Avenue – previous applications stating the location as 7 Waverley Road!

R/205/17/T (previous application) was pinned to the fence of No 12 Bushby and has since been removed? The applicant lives at No 8 with a perfectly good tree outside on the grass verge. As at a few days ago this old application was still on the lamp post at the south end of Waverley Road – should it be removed?

We now have R/248/17/T which is attached to the lamp post by Nos 14/16 Bushby Avenue – once again the applicant lives at No 8 Bushby – has an instruction been received not to put applications outside of No 8? As at a few days ago this application had not appeared in Waverley Road, so the residents of Waverley Road/Waverley Court may not be aware that a further application has been made? Shouldn't a notice be placed where these residents can see it and have an opportunity to comment as it does directly impact them?
