Dear Stephen,

The condition states

' The use of the car parking spaces shall not commence until such time as the vehicular access has been constructed in accordance with plans and details to be submitted to and approved in writing by the Local Planning Authority.'

Please can you advise if the details submitted are acceptable?

Thanks
Anita

Hello Anita,

Following Chris Starks comments, Our advice in this case is to resist such an application pending that the access has been constructed in accordance with the approved site plan as the condition states.

Kind Regards

Stephen Garrard - Planning Technician

Hello Stephen

From the plan shown on the planning portal the site appears to have two existing accesses and the intention is that both will be retained. The VCOs are historic and therefore we will not have any records of a formal approval being granted. They will be regarded as compliant and maintained by WSCC.

If there is to be no modification to the width of either VCO then no further approvals are required, but if there is a proposal to widen one or the other then this will need to be treated as a new VCO application through

[REDACTED]
[REDACTED] I do not envisage any issue with an approval subject to the maximum permitted VCO width of 6.4 metres.

Regards
Chris

Hello both,

Chris: Does this site benefit from a VCO License?

Kind Regards
