Dear Anita,

In relation to condition 6 (acoustic fencing) of the above application, EH is not at present able to recommend discharge because the submission does not demonstrate that the proposed fencing is suitable in terms of acoustic properties. If the applicant is able to provide more detail regarding the acoustic qualities of the fencing scheme, we shall reconsider the application.

Many thanks,

Kate.

Please can you advise what additional info is required and whether the additional gate to the rear of 6 Manor Road, compromises the acoustic integrity as soon as possible?

Thanks
Anita

Hi Anita,

I don't think I can comment on the parking provision but with relation to the EV charging points, it is not clear whether the two points are associated with either or both dwellings; could the applicant please confirm this?

Many thanks,

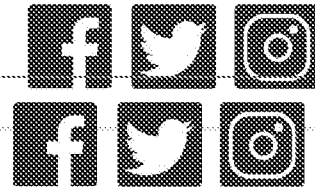

Kate.
